

Weekly Climate & Actuarial Monitor (Supranational Orgs)

Report week of 2026-09-07 - 57 sites checked - 57 succeeded - 0 failed

Executive Summary

Across 25 updates from 57 monitored organizations and web search, this week's evidence concentrated on general, mitigation energy, biodiversity nature. New monitored-site developments include Environmental and Social Sustainability, 2026 Triple Cop Year Business. Notable wider-intelligence items include Determining the Impact of Climate Change, When Actuaries See The Future: Climate R.

Category analysis: Adaptation Resilience (1): Media Resilience and Risk Comm; Biodiversity Nature (2): Philanthropy Key Change Climat, Processionary caterpillar outb; Catastrophe Natcat (3): WHO is on the Ground in Nepal, 2026 Rasuwa Flash Floods; Climate Disclosure (1): IFRS S2 Climate-related Disclo; Conference (1): Strengthening Urban Resilience; General (13): Environmental and Social Susta, 2026 Triple Cop Year Business; Health Mortality (1): The Climate and Health Risk In; Mitigation Energy (1): Carbon Dioxide Removal CDR Mar; Parametric Insurance (1): Developing Parametric Insuranc; Regulation Standards (1): Climate risk - International A.

Actuarial implications include: pricing and product design for climate-related perils, catastrophe modeling and hazard trends, scenario analysis and stress testing for transition risk, disclosure quality and reporting controls under IFRS S2, and growth of parametric insurance markets for climate adaptation.

Recommendations for the working group: (1) Monitor IFRS S2 implementation developments for actuarial reporting implications, (2) Track parametric insurance market growth for climate adaptation, (3) Review catastrophe model updates reflecting 2026 flood events, (4) Assess scenario analysis updates from NGFS and IPCC.

Monitoring Snapshot

Sites checked	57
Succeeded	57
Failed	0
Pillar A updates	18
Pillar B updates	7

* Monitored window: last 7 days (per-site check)

* Pillar B search window: last 3 months

* Total detected changes: 25 -> After relevance filter: 25 (removed 0 non-relevant)

Pillar A

Category: Adaptation & Resilience (1)

1. Media Resilience and Risk Communication Take Centre Stage Lake Chad Basin

UNDRR report on media resilience and risk communication in Lake Chad Basin. Relevant for actuaries assessing climate adaptation risk.

Categories: Adaptation & Resilience

Keywords: media resilience, lake chad, media resilience and, risk communication take, centre stage lake

Category: Biodiversity & Nature (2)

2. Philanthropy Key Change Climate Action

WEF article on philanthropy's role in climate action. Relevant for actuaries assessing ESG integration in investment portfolios.

Categories: Biodiversity & Nature

Keywords: philanthropy key change, climate action wef, article on philanthropy, s role in, climate action

3. Processionary caterpillar outbreaks: how Sustax leverages C3S data to assess climate risk

Article from C3S on climate-related risk topics. Relevant for actuarial assessment of climate and insurance risk.

Categories: Biodiversity & Nature

Keywords: processionary caterpillar outbreaks, how sustax leverages, s data to, assess climate risk, article from c

Category: Catastrophe & Natcat (3)

4. WHO is on the Ground in Nepal Responding to the Devastating Flash Floods

WHO report on Nepal flood response. Relevant for actuaries assessing catastrophe risk in South Asian markets.

Categories: Catastrophe & NatCat

Keywords: who is on, the ground in, nepal responding to, the devastating flash, floods who report

5. 2026 Rasuwa Flash Floods

WHO emergency update on 2026 Rasuwa flash floods in Nepal. Implications for actuaries modeling flood risk frequency and severity.

Categories: Catastrophe & NatCat

Keywords: rasuwa flash floods, rasuwa flash, who emergency update, in nepal, implications for actuaries

6. Flood Tragedy Nepal Highlights Cross Border and Cascading Risks

WMO report on Nepal flood tragedy and cross-border cascading risks. Relevant for actuaries assessing systemic risk in catastrophe modeling.

Categories: Catastrophe & NatCat

Keywords: flood tragedy nepal, highlights cross border, and cascading risks, wmo report on, nepal flood tragedy

Category: Conference & Events (1)

7. Strengthening Urban Resilience and Disaster Preparedness Alexandria

UNDRR event on urban resilience and disaster preparedness in Alexandria. Relevant for actuaries assessing urban catastrophe risk.

Categories: Conference & Events

Keywords: and disaster preparedness, strengthening urban resilience, alexandria undrr event, on urban resilience, in alexandria

Category: General (10)

8. Environmental and Social Sustainability Framework

UNEP published its environmental and social sustainability framework, providing guidelines for integrating climate risk into insurance and investment decisions. The framework addresses physical and transition risk assessment methodologies relevant for actuarial practice.

Categories: General

Keywords: social sustainability, environmental and social, sustainability framework unep, published its environmental, and social sustainability

9. 2026 Triple Cop Year Business

WEF analysis of 2026 as a triple COP year (climate, biodiversity, land) and its implications for business risk management. Highlights the growing importance of climate scenario analysis for insurance pricing.

Categories: General

Keywords: triple cop year, business wef analysis, as a triple, cop year, climate

10. Waste to Energy EU Emissions Energy Security

WEF analysis of waste-to-energy solutions for EU emissions reduction and energy security. Implications for actuaries pricing energy transition risk in infrastructure portfolios.

Categories: General

Keywords: waste to energy, eu emissions energy, security wef analysis, of waste, energy solutions for

11. Money on the Table Why Better Budget Planning Is Key to Fixing the Water Crisis

Article from World Bank on climate-related risk topics. Relevant for actuarial assessment of climate and insurance risk.

Categories: General

Keywords: money on the, table why better, budget planning is key, to fixing the, water crisis article

12. Climate Change in Africa

AFDB blog on climate change impacts in Africa. Relevant for actuaries assessing physical risk exposure in African insurance markets.

Categories: General

Keywords: climate change in, africa afdb blog, on climate change, impacts in africa, relevant for actuaries

13. One-Quarter of World's Crops Threatened by Water Risks

Article from WRI on climate-related risk topics. Relevant for actuarial assessment of climate and insurance risk.

Categories: General

Keywords: quarter of world, s crops threatened, by water risks, article from wri, on climate

14. OCA releases Report on the CSFA Program

OSFI actuarial report on the Canada Student Financial Assistance Program. Provides actuarial methodology insights relevant for public sector risk assessment.

Categories: General

Keywords: oca releases report, on the csfa, program osfi actuarial, report on the, canada student financial

15. Worldview and Water Quality Applications in Coastal Regions

NASA Earthdata training on Worldview and water quality applications. Relevant for actuaries assessing coastal property risk using satellite data.

Categories: General

Keywords: worldview and water, water quality, quality applications in, coastal regions nasa, earthdata training on

16. Monitoring Surface Water with SAR for Water Resource Management

NASA Earthdata training on SAR for surface water monitoring. Relevant for actuaries modeling water resource risk.

Categories: General

Keywords: water resource, monitoring surface water, with sar for, water resource management, nasa earthdata training

17. Low Water Levels Lake Powell Lake Mead August 2026

NASA Earthdata report on low water levels in Lake Powell and Lake Mead. Relevant for actuaries assessing drought risk in western US insurance markets.

Categories: General

Keywords: mead august, low water levels, lake powell lake, nasa earthdata report, on low water

Category: Mitigation & Energy (1)

18. Carbon Dioxide Removal CDR Market Infrastructure

WEF report on carbon dioxide removal (CDR) market infrastructure development. Relevant for actuaries assessing transition risk exposure in carbon-intensive asset portfolios.

Categories: Mitigation & Energy

Keywords: carbon dioxide removal, cdr market infrastructure, wef report on, market infrastructure development, relevant for actuaries

Pillar B

Category: Climate Disclosure (1)

1. IFRS S2 Climate-related Disclosures

Official IFRS S2 standard page. Requires entities to disclose climate-related risks and opportunities affecting cash flows, access to finance, and cost of capital.

Categories: Climate Disclosure

Keywords: ifrs s, standard page, climate, related disclosures official, requires entities to

Category: General (3)

2. Determining the Impact of Climate Change on Insurance Risk and the Global Community

IAA project on determining climate change impact on insurance risk. Recommends collaboration among actuarial organizations to support climate risk assessment.

Categories: General

Keywords: determining the impact, of climate change, on insurance risk, and the global, community iaa project

3. When Actuaries See The Future: Climate Risk, Insurance, And Your Wallet

Article from on climate-related risk topics. Relevant for actuarial assessment of climate and insurance risk.

Categories: General

Keywords: climate risk, when actuaries see, the future, insurance, and your wallet

4. How is insurance underwriting impacted by climate change? - LSE

LSE Grantham Institute explainer on climate change impacts on insurance underwriting. Covers how actuaries forecast future losses using statistical models.

Categories: General

Keywords: insurance underwriting, how is insurance, underwriting impacted by, climate change, lse lse grantham

Category: Health & Mortality (1)

5. The Climate and Health Risk Index

World Bank paper on Climate and Health Risk Index (CHRI). Improves how climate change and health resources are invested.

Categories: Health & Mortality

Keywords: health risk index, the climate and, world bank paper, on climate and, chri

Category: Parametric Insurance (1)

6. Developing Parametric Insurance for Weather Related Risks

World Bank paper on parametric insurance products for climate adaptation in developing countries. Covers weather index insurance and catastrophe bonds.

Categories: Parametric Insurance

Keywords: developing parametric insurance, for weather related, risks world bank, paper on parametric, insurance products for

Category: Regulation & Standards (1)

7. Climate risk - International Association of Insurance Supervisors

IAIS page on climate change as a source of financial risk. Addresses insurer resilience and global financial stability implications.

Categories: Regulation & Standards

Keywords: climate risk, stability implications, international association of, insurance supervisors iaais, page on climate
