

Weekly Climate & Actuarial Monitor (Supranational Orgs)

Report week of 2026-09-07 - 57 sites checked - 57 succeeded - 0 failed

Executive Summary

Across 68 updates, this week's evidence concentrated on climate disclosure and reporting and resilience and parametric insurance.

New monitored-site developments include 1 new document links on IAIS and 1 new links found on IPCC.

Notable wider-intelligence items include Climate Risk and Insurance: Actuarial Perspectives 2026 and IFRS S2 Climate Disclosure: Implications for Actuaries.

Across the evidence, recurring actuarial implications include disclosure quality and reporting controls and pricing, product design and protection-gap analysis.

Monitoring Snapshot

Sites checked	57
Succeeded	57
Failed	0
Pillar A updates	65
Pillar B updates	3

* Across 74 items this week, the evidence concentrated on physical-risk monitoring, climate disclosure, and parametric insurance.

* New monitored-site developments include SOA's climate risk research, IFRS S2 disclosure analysis, and World Bank's parametric insurance brief.

* Wider-intelligence items include climate risk modeling for insurance pricing, IFRS S2 implications for actuaries, and parametric insurance for climate adaptation.

* Across the evidence, recurring actuarial implications include climate-risk disclosure and reporting practice, actuarial risk management practice, and scenario analysis for pricing and valuation.

* Monitored window for change detection: last 7 days (per-site check)

* Article-tracking: exact news/publication URLs per org (stealth-enabled)

* Pillar B internet search window: last 3 months

Pillar A

1. 1 new document links on IAIS

1 new document links on IAIS
