

Weekly Climate & Actuarial Monitor (Supranational Orgs)

Report week of 2026-09-07 - 57 sites checked - 57 succeeded - 0 failed

Executive Summary

Across 24 updates, this week's evidence concentrated on natural catastrophe and physical risk, climate disclosure and reporting, and scenario analysis and actuarial assumptions.

New monitored-site developments include media resilience and risk communication take centre stage lake chad basin and philanthropy key change climate action.

Notable wider-intelligence items include IFRS S2 Climate Disclosure: Implications for Actuaries and SOA Research: Climate Risk and Insurance Actuarial Perspectives 2026.

Across the evidence, recurring actuarial implications include catastrophe modelling, hazard trends and loss assumptions, disclosure quality and reporting controls, and scenario calibration and actuarial assumption setting.

Monitoring Snapshot

Sites checked	57
Succeeded	57
Failed	0
Pillar A updates	21
Pillar B updates	3

* Monitored window: last 7 days (per-site check)

* Pillar B search window: last 3 months

* Total detected changes: 21 -> After relevance filter: 21 (removed 0 non-relevant)

Pillar A

1. media resilience and risk communication take centre stage lake chad basin

2. philanthropy key change climate action

3. who is on the ground in nepal responding to the devastating flash floods

4. 2026 rasuwa flash floods

5. flood tragedy nepal highlights cross border and cascading risks

6. strengthening urban resilience and disaster preparedness alexandria

7. IFRS S2 Climate Disclosure: Implications for Actuaries

8. environmental and social sustainability framework

9. 2026 triple cop year business

10. carbon dioxide removal cdr market infrastructure

11. waste to energy eu emissions energy security

12. Money on the Table Why Better Budget Planning IsKey to Fixing the Water Crisis

13. climate change in africa

14. One-Quarter of World's Crops Threatened by Water Risks

15. OCA releases Report on the CSFA Program

16. Processionary caterpillar outbreaks: how Sustax leverages C3S data to assess climate risk

17. Worldview and Water Quality Applications in Coastal Regions

18. Monitoring Surface Water with SAR for Water Resource Management

19. low water levels lake powell lake mead august 2026

20. SOA Research: Climate Risk and Insurance Actuarial Perspectives 2026

21. NGFS Climate Scenarios for Financial Risk Assessment

Pillar B

1. IFRS S2 Climate Disclosure: Implications for Actuaries

2. SOA Research: Climate Risk and Insurance Actuarial Perspectives 2026

3. NGFS Climate Scenarios for Financial Risk Assessment
