

# Weekly Climate & Actuarial Monitor (Supranational Orgs)

Report week of 2026-09-07 - 57 sites checked - 57 succeeded - 0 failed

## Executive Summary

Across 25 updates, this week's evidence concentrated on resilience and parametric insurance, natural catastrophe and physical risk, and climate finance and investment.

New monitored-site developments include Media Resilience and Risk Communication Take Centre Stage Lake Chad Basin and Philanthropy Key Change Climate Action.

Notable wider-intelligence items include IFRS S2 Climate-related Disclosures and Determining the Impact of Climate Change on Insurance Risk and the Global Community.

Across the evidence, recurring actuarial implications include pricing, product design and protection-gap analysis, catastrophe modelling, hazard trends and loss assumptions, and investment classification and capital allocation.

## Monitoring Snapshot

|                  |    |
|------------------|----|
| Sites checked    | 57 |
| Succeeded        | 57 |
| Failed           | 0  |
| Pillar A updates | 18 |
| Pillar B updates | 7  |

\* Monitored window: last 7 days (per-site check)

\* Pillar B search window: last 3 months

\* Total detected changes: 25 -> After relevance filter: 25 (removed 0 non-relevant)

## Pillar A

### Category: Adaptation & Resilience (1)

#### 1. Media Resilience and Risk Communication Take Centre Stage Lake Chad Basin

UNDRR report on media resilience and risk communication in Lake Chad Basin. Relevant for actuaries assessing climate adaptation risk.

Categories: Adaptation & Resilience

Keywords: adaptation, resilience, risk communication

### Category: Biodiversity & Nature (2)

## 2. Philanthropy Key Change Climate Action

WEF article on philanthropy's role in climate action. Relevant for actuaries assessing ESG integration in investment portfolios.

Categories: Biodiversity & Nature

Keywords: biodiversity, nature

## 3. Processionary caterpillar outbreaks: how Sustax leverages C3S data to assess climate risk

Article from C3S on climate-related risk topics. Relevant for actuarial assessment of climate and insurance risk.

Categories: Biodiversity & Nature

Keywords: caterpillar

## Category: Catastrophe & Natcat (3)

### 4. WHO is on the Ground in Nepal Responding to the Devastating Flash Floods

WHO report on Nepal flood response. Relevant for actuaries assessing catastrophe risk in South Asian markets.

Categories: Catastrophe & NatCat

Keywords: catastrophe, flood

### 5. 2026 Rasuwa Flash Floods

WHO emergency update on 2026 Rasuwa flash floods in Nepal. Implications for actuaries modeling flood risk frequency and severity.

Categories: Catastrophe & NatCat

Keywords: model, flood

### 6. Flood Tragedy Nepal Highlights Cross Border and Cascading Risks

WMO report on Nepal flood tragedy and cross-border cascading risks. Relevant for actuaries assessing systemic risk in catastrophe modeling.

Categories: Catastrophe & NatCat

Keywords: model, catastrophe, flood, systemic risk

## Category: Conference & Events (1)

### 7. Strengthening Urban Resilience and Disaster Preparedness Alexandria

UNDRR event on urban resilience and disaster preparedness in Alexandria. Relevant for actuaries assessing urban catastrophe risk.

Categories: Conference & Events

Keywords: catastrophe, disaster, resilience, preparedness

## Category: General (10)

### 8. Environmental and Social Sustainability Framework

UNEP published its environmental and social sustainability framework, providing guidelines for integrating climate risk into insurance and investment decisions. The framework addresses physical and transition risk assessment methodologies relevant for actuarial practice.

Categories: General

### 9. 2026 Triple Cop Year Business

WEF analysis of 2026 as a triple COP year (climate, biodiversity, land) and its implications for business risk management. Highlights the growing importance of climate scenario analysis for insurance pricing.

Categories: General

Keywords: scenario, biodiversity

### 10. Waste to Energy EU Emissions Energy Security

WEF analysis of waste-to-energy solutions for EU emissions reduction and energy security. Implications for actuaries pricing energy transition risk in infrastructure portfolios.

Categories: General

Keywords: energy transition

### 11. Money on the Table Why Better Budget Planning IsKey to Fixing the Water Crisis

Article from World Bank on climate-related risk topics. Relevant for actuarial assessment of climate and insurance risk.

Categories: General

### 12. Climate Change in Africa

AFDB blog on climate change impacts in Africa. Relevant for actuaries assessing physical risk exposure in African insurance markets.

Categories: General

### 13. One-Quarter of World's Crops Threatened by Water Risks

Article from WRI on climate-related risk topics. Relevant for actuarial assessment of climate and insurance risk.

Categories: General

### 14. OCA releases Report on the CSFA Program

OSFI actuarial report on the Canada Student Financial Assistance Program. Provides actuarial methodology insights relevant for public sector risk assessment.

Categories: General

### 15. Worldview and Water Quality Applications in Coastal Regions

NASA Earthdata training on Worldview and water quality applications. Relevant for actuaries assessing coastal property risk using satellite data.

Categories: General

### 16. Monitoring Surface Water with SAR for Water Resource Management

NASA Earthdata training on SAR for surface water monitoring. Relevant for actuaries modeling water resource risk.

Categories: General

Keywords: model

### 17. Low Water Levels Lake Powell Lake Mead August 2026

NASA Earthdata report on low water levels in Lake Powell and Lake Mead. Relevant for actuaries assessing drought risk in western US insurance markets.

Categories: General

Keywords: drought

## Category: Mitigation & Energy (1)

### 18. Carbon Dioxide Removal CDR Market Infrastructure

WEF report on carbon dioxide removal (CDR) market infrastructure development. Relevant for actuaries assessing transition risk exposure in carbon-intensive asset portfolios.

Categories: Mitigation & Energy

Keywords: cdr

## Pillar B

## Category: Climate Disclosure (1)

### 1. IFRS S2 Climate-related Disclosures

Official IFRS S2 standard page. Requires entities to disclose climate-related risks and opportunities affecting cash flows, access to finance, and cost of capital.

Categories: Climate Disclosure

Keywords: disclosure, ifrs, s2, standard

## Category: General (3)

## 2. Determining the Impact of Climate Change on Insurance Risk and the Global Community

IAA project on determining climate change impact on insurance risk. Recommends collaboration among actuarial organizations to support climate risk assessment.

Categories: General

## 3. When Actuaries See The Future: Climate Risk, Insurance, And Your Wallet

Article from on climate-related risk topics. Relevant for actuarial assessment of climate and insurance risk.

Categories: General

## 4. How is insurance underwriting impacted by climate change? - LSE

LSE Grantham Institute explainer on climate change impacts on insurance underwriting. Covers how actuaries forecast future losses using statistical models.

Categories: General

Keywords: model

## Category: Health & Mortality (1)

### 5. The Climate and Health Risk Index

World Bank paper on Climate and Health Risk Index (CHRI). Improves how climate change and health resources are invested.

Categories: Health & Mortality

Keywords: health

## Category: Parametric Insurance (1)

### 6. Developing Parametric Insurance for Weather Related Risks

World Bank paper on parametric insurance products for climate adaptation in developing countries. Covers weather index insurance and catastrophe bonds.

Categories: Parametric Insurance

Keywords: catastrophe, adaptation, parametric, index insurance, weather index

## Category: Regulation & Standards (1)

### 7. Climate risk - International Association of Insurance Supervisors

IAIS page on climate change as a source of financial risk. Addresses insurer resilience and global financial stability implications.

Categories: Regulation & Standards

Keywords: resilience, financial stability, iaais, supervisory
