

Weekly Climate & Actuarial Monitor (Supranational Orgs)

Report week of 2026-09-07 - 57 sites checked - 57 succeeded - 0 failed

Executive Summary

Across 7 updates, this week's evidence concentrated on climate disclosure and reporting, resilience and parametric insurance, and standards and regulation.

No newly detected site change met the report's Pillar A inclusion criteria this week.

Notable wider-intelligence items include IFRS S2 Climate-related Disclosures and Climate risk - International Association of Insurance Supervisors.

Across the evidence, recurring actuarial implications include disclosure quality and reporting controls, pricing, product design and protection-gap analysis, and implementation timelines and professional standards.
